BEST FOR:	Residential · Café · Wellness · Boutique

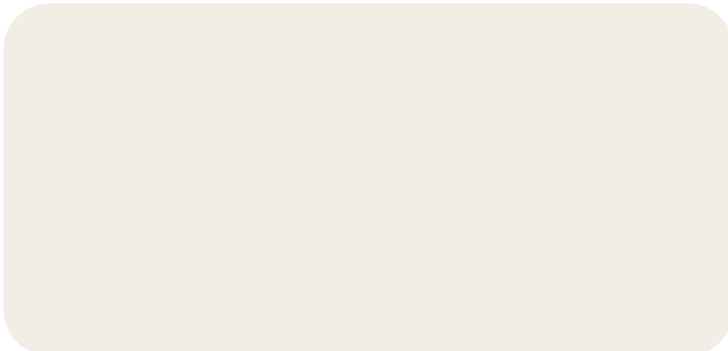

POPULAR COLORS

A near-pure white with the faintest warmth. The brightest and most neutral of the three, ideal for maximising light in any space.

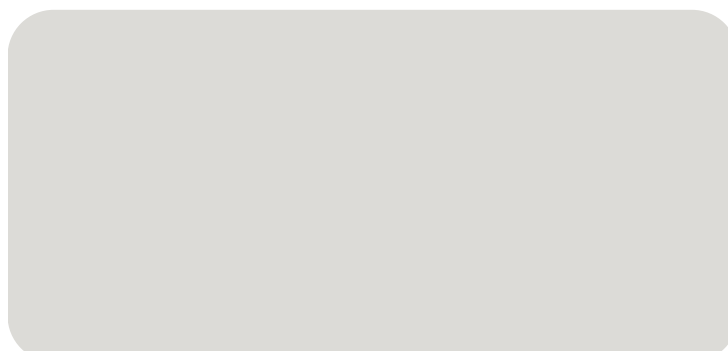

White

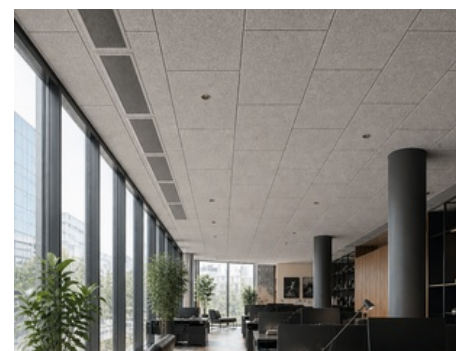

A warm, linen-inspired tone with subtle golden undertones. Brings softness and texture to any interior.

Sand

A cool, serene grey with just enough warmth to avoid feeling clinical. Ideal for offices, lobbies, and contemporary spaces.

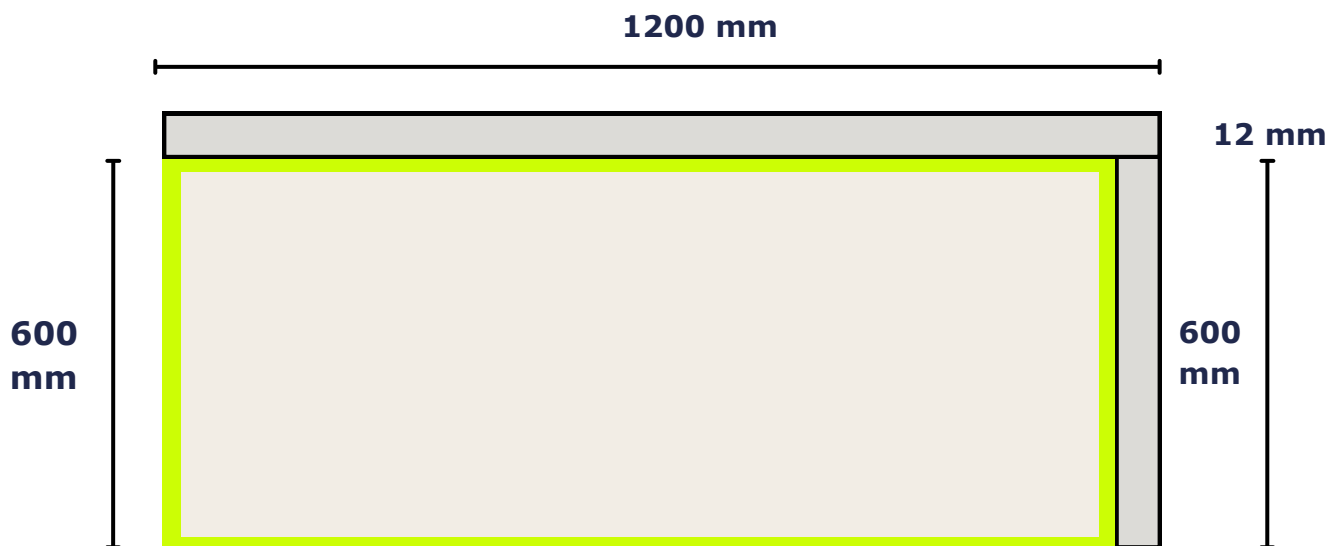

Grey

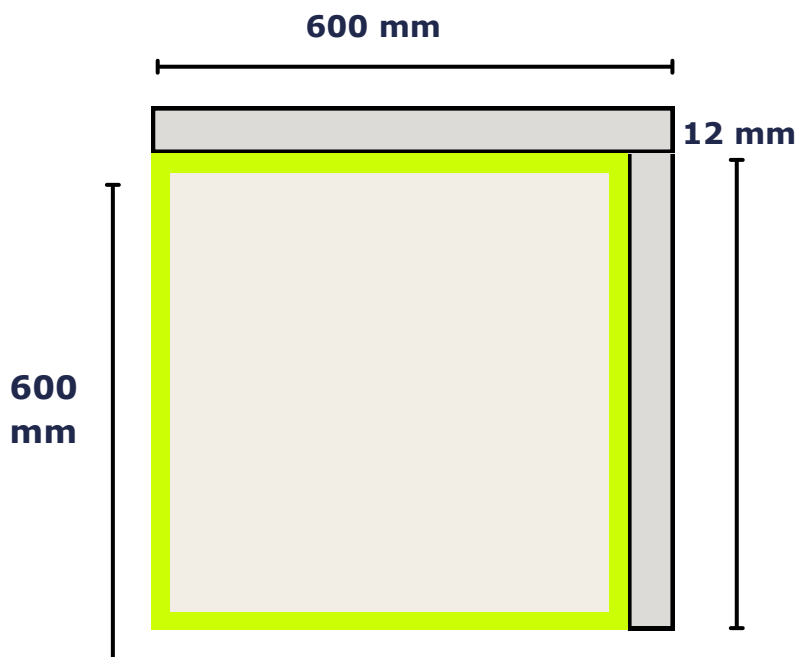

TWO SIZES

ONE DESIGN

All panels feature a 22.5° beveled edge on all 4 sides for seamless installation.

ACOUSTIC PET FELT CEILING

Our ceiling collection combines modern design, acoustic comfort, and functional ceiling solutions for contemporary interiors.

From PET Ceiling Panels to Slat Panel ceilings and Acoustic Baffles, the collection is designed to enhance both aesthetics and room acoustics.

Reffe is a Denmark-based import and export company headquartered in Herning, with sister companies strategically located in Shanghai and Foshan, China. Founded by Henrik Nielsen-Refs, who brings over two decades of expertise in the building materials industry, Reffe specializes in supplying high-quality acoustic solutions to clients across Europe, North America, and global markets.

**Acoustic Performance**

Effective sound absorption and noise reduction, delivering clean acoustics for residential, public, and commercial spaces.

**Minimalist Design**

22.5° beveled edge on all 4 sides — panels connect seamlessly from every direction for a refined ceiling expression.

**Min. 50% Recycled**

Made from 100% Polyester Fiber with a minimum of 50% recycled PET material — we love the story of turning plastic bottles into beautiful interiors.
